PORTLAND JAPANESE GARDEN &
CENTER FOR ARCHITECTURE PRESENT

Tsunagu

CONNECTING TO THE ARCHITECTURE OF KENZO TANG

Tsunagu is a new addition to the Portland Japanese Garden, designed by Kenzo Tang. The garden is a traditional Japanese garden, but with a modern twist. It features a large, open space with a central pond and a series of walkways that lead to various viewing points. The garden is designed to be a place where people can connect with nature and each other.

The garden is a traditional Japanese garden, but with a modern twist. It features a large, open space with a central pond and a series of walkways that lead to various viewing points. The garden is designed to be a place where people can connect with nature and each other.
